

You can see why ClearShield's patented one-piece stainless steel technology is so popular.

To provide your corporate setting with a touch of class, insist on ClearShield Security Doors and Screens. There's no ugly bars or grilles, and our unique 'one piece' stainless steel technology is both strong and easy to clean.

ClearShield Product Testing

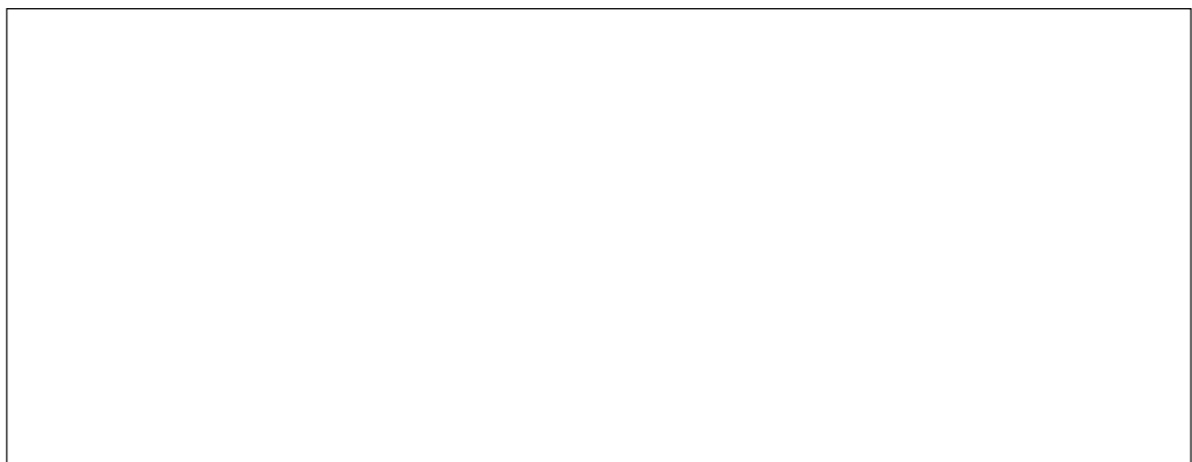

ClearShield Security Doors and Screens comply with AS 5039 - 2003 (Product Standard) and have passed the following tests as part of AS 5041 - 2003 (Method of Test Standard).

- Dynamic Impact Test
- Pull Test
- Knife Shear Test
- Jemmy Test

ClearShield's stunning pool fencing solutions are an attractive and practical alternative to glass, enabling you to enjoy the view and the breeze.

Security Doors

ClearShield's unique one-piece, stainless steel technology is used for an endless range of domestic and commercial applications, combining slim-line attractiveness with tough as steel protection.

- Security Doors
- Security Screens
- Emergency Exit Screens
- Cyclone Screens
- Fire Attenuation Screens
- Patio Enclosures
- Pool Fencing
- Balcony Balustrading

ClearShield Stainless Steel Security Doors provide optimum visibility, allowing you to enjoy the view and breeze by leaving your doors and windows open, without compromising security.

1 Quick Release

2 Push Open

3 Easy Escape

Emergency Exit Screens

Our innovative Emergency Exit Screens enable occupants of a home or building to easily exit the premises in case of emergency.

The screens are designed for window applications and feature an easy release mechanism that also acts as a secure, tamper resistant device that locks the screen closed for peace of mind.

Security Screens

ClearShield Screens are an aesthetically pleasing alternative to ugly bars or bulky grilles. What's more, they effectively stop pesky mosquitos and other insects from getting in.
